

Quality Policy

We are being certified for the Development and Provisioning of Building Information Modelling (BIM) and Digital Twin (DT) solutions for the Architecture, Engineering, Construction and Operation (AECO) industry.

Consideration of context of the organization and aligning the Quality Management System with the strategic direction of 3D Repo, we will endeavour to:

- Satisfying customer and applicable statutory and regulatory requirements
- Management of organization, along with employee-established quality objectives and defined responsibilities for their fulfillment
- Establishing, applying, maintaining and continual improvement of effectiveness of Quality Management System – ISO 9001:2015
- Commitment to increase quality of our products (3drepo.io and supporting software) in order to exceed customers' expectations
- Improving Customer Satisfaction
- Tracking and applying new and emerging technologies and educating employees
- Careful selection of suppliers
- Making continuous improvement a part of every day and every job
- Ensuring that our Policy and Procedure Manuals reflect what we actually do

The framework for setting quality objectives is defined in the Quality Manual.

The Quality Manager is responsible for communicating the Quality Policy to all persons working for or on behalf of the organization and making it available to the public.
